- Distraction osteogenesis “jaw lengthening”
- Birth marks, hemangiomas and vascular lesions
- Jaw growth disturbances and facial asymmetries
- Trauma and post-traumatic deformities
- Facial tumors, cysts and pathology

PHYSICIAN REFERRALS
We welcome the privilege of working with physicians on the evaluation and care of patients. Calls from physician offices will be given priority based upon professional opinion for either same day or next-day booking. A referral form is available on our website at camc.org/faces or by calling our office at (304) 388-2950. Referrals can be faxed to (304) 388-2951.

CHARITABLE GIFTS
We are often asked if it is possible to make a donation to the Cleft Center/FACES program. The answer is yes – these contributions provide patients and their families with educational, emotional and financial assistance. For more information about charitable gifts, please contact the CAMC Foundation at (304) 388-9860 or visit camcfoundation.org.
ABOUT US
The CAMC Physicians Group Cleft Center/First Appalachian Craniofacial Deformity Specialists (FACES) is located at Charleston Area Medical Center’s Women and Children’s Hospital. We specialize in the comprehensive management of congenital and acquired cranio-maxillofacial deformities (skull, scalp, eyes, ears, nose, jaws, airway, lips and mouth) and other related problems.

FACES is comprised of facial surgeons, neurosurgeons, ENT physicians, dentists, developmental specialists, orthodontists, geneticist, speech pathologists and social workers. Our specialists are committed to caring for patients that require a comprehensive team approach and are available during team visits or individual appointments.

OUR PHYSICIANS
Bruce B. Horswell, MD, DDS, MS, FACS – Medical Director
Dr. Horswell is a member of the American Association of Oral and Maxillofacial Surgeons and the American Cleft Palate-Craniofacial Association. He obtained his medical degree and surgical training from the University of Connecticut in Farmington, Connecticut, and his dental degree and oral maxillofacial training from the University of Minnesota. He completed two craniofacial fellowships at the Royal Children’s Hospital in Melbourne, Australia and the Royal Children’s Hospital in Liverpool, England. He was on the faculty at the University of Maryland Medical Center in Baltimore, Maryland, and also has been in private practice in his home state of Minnesota. Dr. Horswell is board certified for the American Board of Oral and Maxillofacial Surgery and is a well-known national and international speaker and author.

Paul Kloostra, MD, DDS, is a member of the American Association of Oral and Maxillofacial Surgeons and the American Cleft Palate-Craniofacial Association. He earned his dental and medical degrees from the University of Michigan in Ann Arbor, Michigan, where he also completed his general surgical internship and specialty training in oral and maxillofacial surgery. Following a year as faculty at the University of Michigan in the Department of Oral and Maxillofacial Surgery, Dr. Kloostra completed his fellowship training in cleft and craniofacial surgery at CAMC with Dr. Horswell.

FELLOWSHIP AND RESEARCH
Since 2005, the FACES clinic has provided a one-year post-residency fellowship in pediatric cranio-maxillofacial surgery. The fellowship follows accredited residency training and focuses primarily on children with both acquired and congenital (birth) facial deformities and differences. Over the years, we have been privileged to attract and train outstanding doctors from many regions of the country and Canada.

One of the most important elements in proper training is clinical research. Our fellows participate in clinical reviews of our patient population and work together to advance pediatric care in order to provide the latest, most advanced care for our patients.

Lily Brumfield, 2 - St. Albans, WV
Cleft palate

DIRECTIONS
The Cleft Center / FACES is located in the Medical Staff Office Building behind CAMC Women and Children’s Hospital (handicap accessible with two elevators). You may park in the visitor parking lot beside the building (hourly fees apply).
