When joint pain slows you down and you want to get back to doing the things you enjoy, you have to find the right doctor who can help you get there.

Alexander D. Rosenstein, MD, Director of Reconstructive and Orthopedic Surgery, specializes in adult hip and knee replacement, joint preservation, joint replacement and revision surgery. He is board certified by the American Board of Orthopaedic Surgery and has extensive experience in private and academic practice.

A graduate of the University of Minnesota Institute of Technology, Dr. Rosenstein received his medical degree from the University of Minnesota School of Medicine. He completed his orthopedic residency at the University of California, San Diego Medical Center. He was awarded the Girdlestone Scholarship and completed a fellowship in Adult Reconstruction and Joint Replacement at Oxford University in England.

Dr. Rosenstein served as Professor of Orthopaedic Surgery and Chief of Adult Reconstruction Division at the University of Texas Medical School Houston and Adjoint Professor of Biomedical Engineering at the University of Texas Austin. He has held academic positions of Assistant Clinical Professor of Orthopaedic Surgery at the University of California Irvine and Associate Professor of the Department of Orthopaedic Surgery and Adjunct Associate Professor of the Department of Mechanical Engineering at Texas Tech University. He has also served as Chief of Surgery and Chief of Medical Staff at South Coast Medical Center in Laguna Beach, California.

Dr. Rosenstein holds US and Canadian patents and an FDA approval for implant designs used for joint reconstruction. He has presented numerous papers at national and international peer-reviewed meetings. He also has served as the invited speaker and visiting professor for various medical presentations in the United States and abroad, including Spain, South Africa, China and Ukraine.

Dr. Rosenstein is the leading author of a book for patients titled: Everything You Ever Wanted To Know About Shoulder, Hip and Knee Arthritis, But Didn’t Know What To Ask.

He has also participated in research, presented and published articles on a variety of joint reconstruction topics in national orthopedic journals, including:

- **Correlation of Body Mass Index and Blood Loss During Total Knee and Total Hip Arthroplasty.** American Journal of Orthopedics, October 2012;41 (10):467-471

- **Challenges and Solutions for Total Hip Arthroplasty in Treatment of Patients with Symptomatic Sequelae of Developmental Dysplasia of the Hip.** American Journal of Orthopedics, 2011 ;40(2):87-97
