

Student Tuition Assistance Available

CAMC is investing in the future of health care – YOU!

We know that a highly-educated workforce strengthens the quality of care we provide our patients. That's why we provide students with access to programs that help them complete their education and secure their place on our elite team.

CAMC is proud to offer tuition assistance to eligible students who have been accepted to an LPN, Medical Lab Tech, Rad Tech or Cardiac Ultrasonography, or Respiratory Therapy program. Students must have a letter of acceptance or be in good standing, and must be currently attending a program in the state.

Work Commitment Guidelines

In exchange for the tuition assistance, students must agree to a work commitment with CAMC:

- Must be in a .8 status or greater for the entire timeframe of contract

Financial Guidelines

- Maximum amount for contract is \$15,000.00
- If not successful in completing the program or obtaining licensure, the full amount will be required to be paid back
- Anything paid out in excess of \$5,250 in a calendar year, per the IRS regulations, will be taxed. If you are not a CAMC employee, you will receive a 1099 year end for tax purposes.

To apply online please go to the following link: <https://secure1.camc.org/lliapplication>. Incomplete applications will not be considered.

For more information, contact Brianna Chin at (304) 388-3376 or brianna.chin@camc.org.

Educational assistance is made possible by funds from the CAMC Foundation.
