## 2013 Community Benefit Report and Report on Implementation Strategies

### Executive Summary

This community benefit report describes the programs and services that take place every day at CAMC Teays Valley Hospital to improve the health of our community.

In 2013, CAMC Teays Valley Hospital provided \$6,513,041 in community benefit. Our programs and services go well beyond the traditional health care we think of when we consider hospital care and are delivered both inside and outside the walls of our hospitals. They are driven by our mission, *Striving to provide the best health care to every patient, every day.*

Part of the CAMC Health System, CAMC Teays Valley Hospital, Inc. is a West Virginia nonprofit tax-exempt corporation that owns and operates a 70 bed general acute care hospital in Hurricane, Putnam County, West Virginia. The hospital was purchased from HCA – The Health Care Corporation in 2006 in an effort to preserve hospital and healthcare services in Putnam County. CAMC Teays Valley Hospital provides cardiology, family practice, surgical and endoscopy services, infectious disease, internal medicine, medical intensive care, ophthalmology, nephrology, neurology, orthopedics, pain, pulmonary, radiology, urology and wound care services as well as emergency care, outpatient lab, radiology, physical therapy and ambulatory infusion services.

The residents of Putnam County depend on CAMC Teays Valley Hospital to provide convenient, quality and compassionate care – care delivered regardless of a patient’s ability to pay.

We give back to our community because we understand the impact that medical care provided locally in our community as well as charity care, education, corporate contributions and community partnerships have on the lives of the people in our community. In this report, you will read about examples of the programs we provide to the community and how we demonstrate our community commitment.

**The Community Benefit Report is made available to the public via the CAMC Health System website at [www.camc.org](http://www.camc.org) and is available upon request from the hospital facility.**

# 2013 COMMUNITY BENEFIT SUMMARY

## **CHARITY CARE AT COST** **\$3,049,075**

Free or discounted health services provided to persons who meet the organization's criteria for financial assistance and are thereby deemed unable to pay for all or a portion of the services. Charity care is reported in terms of costs, not charges. Charity care does not include (1) bad debt or uncollectible charges that the hospital recorded as revenue but wrote off due to failure to pay by patients, or the cost of providing such care to patients; (2) the difference between the cost of care provided under Medicaid or other means- tested government programs or under Medicare and the revenue derived therefrom; or (3) contractual adjustments with any third-party payors.

## **GOVERNMENT SPONSORED MEANS-TESTED HEALTH CARE SHORTFALLS**

Includes the unpaid costs of public programs for low income persons; the "shortfall" created when a facility receives payments that are less than cost of caring for public program beneficiaries. This payment shortfall is not the same as a contractual allowance, which is the full difference between charges and government payments.

**Unreimbursed Medicaid** **\$2,733,770**

**Other Public Unreimbursed Costs** **\$555,409**

## **COMMUNITY BENEFIT PROGRAMS AND SERVICES** **\$174,787**

See details beginning on page 22.

Community Health Improvement Services	\$153,182
Financial and In-Kind Contributions	11,865
Community Building Activities	8,340
Community Benefit Operations	1,400

**TOTAL** **\$6,513,041**

**In addition to the above, although Medicare and Bad Debt are not included as part of the community benefit report per IRS guidelines, they are reflective of CAMC Teays Valley Hospital's role in providing benefit to our community.**

## **UNREIMBURSED MEDICARE AT COST** **\$6,545,279**

Medicare is not considered a means tested program and thus is not included as part of community benefit.

## **BAD DEBT AT COST** **\$5,636,172**

Unreimbursed costs, excluding contractual adjustments, arising from the failure to pay by patients whose health care has not been classified as charity care.

*NOTE: Charity Care, Unreimbursed Medicare, Medicaid and Bad Debt – The total cost estimate for this care was determined by applying our Medicare ratio of cost to charges generated for these patient financial classifications.*
